

REV-X PREMIUM COBRA (DOKDO)

Brand: DNS

Price: \$132.95

Description

- It is a world-class patented product that is registered in Korea, USA and Japan and is exported all over the world.
- Made of DURALLMIN (high-strength high-strength aluminum) material used as airplane material, it is light and durable.
- New technology coating technique applied to the advantages of existing REV-X, which features an angle adjuster designed to find your own fine angles and easy to use, adding sensual patterns and colors.
- It is a top quality wrist guard that combines germanium and ceramics on the pads and straps to combine biologic features to help maintain optimal condition.
- Detachable (detachable) pad that is easy to wash. Germanium and ceramics contained in the pad are more hygienic because they excel in bacterial and odor removal.
- The natural leather wrist strap and the auxiliary pad on the wrist strap are made of germanium and ceramics to help activate the body and enhance grip.
